Notes Regarding Interest Earned on Deposit Accounts:

- 1) Interest is calculated based on the daily closing balance of the account. This balance includes transactions completed on a business day as follows:
 - All in-branch transactions, EasyLine[®] transactions, and EasyWeb[®] transactions (except TD Waterhouse[®] transfers and account transfers involving foreign currency) completed prior to 11:59 p.m. ET
 - All EasyWeb TD Waterhouse transfers completed prior to 8:00 p.m. ET
 - All EasyWeb account transfers involving foreign currency, ATM transactions and Debit Payment purchases completed prior to 9:00 p.m. ET
 Transactions completed or processed after the above times on a business day or anytime over the weekend or on a statutory holiday will be considered for interest calculation purposes to have been made on the next business day.
- 2) Daily interest is calculated as follows: Daily closing balance x interest rate for the appropriate tier divided by 365. Interest calculations using a minimum monthly balance are calculated based on 366 days during a leap year. Interest accrues for each day during a leap year. When an account is closed, interest credited is calculated based on the previous business day.
- 3) For deposit accounts opened on the last business day of the month, any interest earned for that day will be posted to the account on the last business day of the following month.
- 4) In-branch deposits containing cheques totalling \$100,000 or greater received after 5:00 pm local time (or anytime on a weekend) will be held in safe-keeping and deposited to the account the next business day.
- 5) Business day means Monday to Friday, excepting statutory holidays and excluding Saturdays and Sundays.
- 6) Interest rates are subject to change without notice.
