

Contributing to the growth and vitality of our communities is a core value at TD. And we strongly believe that if we really want to make a difference over the long term, we must look to the needs of children. That is why we have chosen to focus our support on programs which benefit children and youth. In doing so, we hope to help ensure a bright future for Canada and the communities where we operate.

Through our Community Giving Program, each year TD gives to hundreds of charities across Canada. While donations are made in all areas, a substantial portion of the growth in our annual budget is allocated for organizations focusing on children and youth. To ensure the donations we make are directly responsive to local communities, decisions on many of our donations are made at the regional or branch level.

TD's national sponsorship program is focused on children's safety, with an emphasis on programs that have the greatest possible impact on local communities and on the lives of children. During the past three years, we have developed sponsorship relationships with two major national charities, Block Parent Program of Canada and the Children's Miracle Network.

We are now in our third year as national sponsor of the Block Parent® Program of Canada. By promoting this program across the country, we hope to recruit more Block Parents and create safer communities for children. TD's involvement with Block Parent has been embraced by our employees in local communities. Working together at the grass roots level, Block Parent volunteers and TD branch representatives have held various community events which have helped to raise public awareness of the Block Parent Program and expand the network of homes that children can turn to in times of distress.

TD is also proud to be a national sponsor of the Children's Miracle Network (CMN), a network of children's hospitals and foundations which serve over 2 million children each year in Canada. CMN is a cause very close to the hearts of our employees. Each year, TD employees hold hundreds of special events to raise money for their local CMN hospital or foundation. It is through their dedication that we are able to help generate awareness of CMN and raise funds which help provide vital services for children.
